

Usman Ghias

Dear Hiring Manager Kicks,

I'm writing to express my enthusiasm for the job opportunity at Kicks as Odoo developer. As a highly motivated software engineering student, I'm thrilled about the possibility of contributing to your team and gaining valuable experience in the educational sector.

Currently pursuing Bachelor's degree in Software Engineering at Punjab University of Information Technology, I've gained hands-on experience with a variety of back-end & front-end frameworks, databases, IDEs & code editors, data science tools, version control systems & programming languages through my coursework and personal projects. Moreover, I've honed my interpersonal skills including leadership, teamwork, critical thinking, problem-solving, adaptability and flexibility, conflict resolution and emotional intelligence.

As a coding tutor and freelancer, I've gained practical experience in JavaScript, advanced data science, advanced Django, complete web development, core Java, and React JS. I'm always looking for new opportunities to broaden my knowledge and skills. In addition, I have participated in several professional development opportunities including the Amal Academy Fellowship, CODCrafters and Helping Hand to enhance my skills.

I'm confident that my skills, experience and passion make me a perfect fit for the job opportunity at Kicks. I am eager to contribute to your team and learn from industry professionals. Thank you for considering my application.

Sincerely,

[Muhammad Usman Khan]
